[FW RMP Facilities.msg](#)

David – attached is the Harvey Summaries of Activities that was generated during the Harvey Response. I had just forwarded it to Diane & Lisa this week. Additionally, the email to Sam clarifying the number of RMP facilities (520) is also attached. Althea is getting together some additional information on final disposal numbers and will forward those as soon as she has it.

Let us know if you can think of anything else,

Bryant

Lisa/Diane – Please see the attached summary document. This is just an internal document that summarizes most of R6 activities during Hurricane Harvey. Also, below is the link to the website that has most of the documents, including updates, from the Harvey response.

Subject: HH Testimony

Hey Bryant – Diane T. has been tasked to prepare Sam's written testimony for his upcoming Senate hearing appearance on the 14th. I know you worked with Diane last week or so to craft a couple of paragraphs that were sent forward for inclusion in the testimony for the R2 RA but now, this is more extensive and HQ wants Sam to provide them with his entire written testimony for their review. As soon as possible, please send Diane (w/cc to me) any of the final HH documented statistical briefing papers related to our response efforts along with any HH response overview documents/sit reps that talk about our response in general, the timeline involved etc. as well as any other documentation

you can think of that may provide her with language that can be used in the composition of Sam's testimony. I'm quite sure you know what the most important documentation pieces are but if any questions, please let me know. Thanks in advance.
